## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a) because they fail to show **(Figure 6 does not disclose “ the ergonomic duty belt depicted in Figure 5 shown encircling a liner belt located on the interior of the ergonomic duty belt” as recited in the specification page 10, paragraph 23, filed on February 18, 2004.** Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

Art Unit: 3782

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities:

Delete Specification page 10, paragraph 0027, which recites: "Fig. 10 is a top view of the attachment device shown in Fig. 10" and replace Specification page 10, paragraph 27 with - - Fig. 10 is a top view of the attachment device shown in Figures 7, 8 & 9 - -.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 29 – 34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 3782

Claims 29 and 33 recite: "a semi-rigid duty belt"; However, the specification filed on February 18, 2004 does not recite, identify, describe, or disclose "a semi-rigid duty belt".

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 29 – 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 29 & 33 recites: "an ergonomic duty belt, comprises: a liner belt; an outer belt; and a semi-rigid duty belt".

Claims 32 recites: "a lumbar pillow removably attached to a midpoint of **said belt**, configured to form a supporting feature on said inside of **said belt**."

It is unclear which "said BELT" applicant is referring to regarding claim 32, since claim 32 depend from claim 29 which recites: "an ergonomic duty belt, comprises: a liner belt; an outer belt; and a semi-rigid duty belt".

Furthermore, claim 33 also recites "a lumbar pillow removably attached to a midpoint of **said belt**, configured to form a supporting feature on said inside of **said belt**."

Art Unit: 3782

It is unclear which “said BELT” applicant is referring to regarding claim 33, since claim 33 recites: “an ergonomic duty belt, comprises: a liner belt; an outer belt; and a semi-rigid duty belt”.

***Allowable Subject Matter***

7. Claims 24 – 28 are allowed.

***Response to Arguments***

8. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3782

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
